BELOW ARE THE DETAILS TRADING STATEMENTS OF THE ALERT SERVICES – IF THEY UNCLEAR PLEASE INCREASE THE SIZE OF THE PAGE OR PRINT THEM

The UK service mainly uses Financial turning Point technique which uses an initial 1 to 2 return on risk (1 gain for every 2 risked) whereas the US and Asian alerts use a 2 to 1 return on risk (2 gain for every 1 risked) – Hence the lower returns.

Please note past results are no guarantee of future performance. Always trade assuming that you are going to lose money in the short term and only increase risk once you have made sufficient gains to absorb the risk you are taking. Never trade with money that you can't afford to lose. Also never trade with money if you are relying on the income. Treat our alerts and trading as a long term investment. When in doubt follow our conservative risk management and lot sizing approach used in our alert services.
